

DRUG TESTING INFORMATION

Pre-employment drug testing is optimal for protecting your small business. They are quick and easy to set-up and use. We work with collection sites all over the United States, which makes it easy for both employers and prospective employees. A Medical Doctor reviews all positive or abnormal test results. Analysis is completed by certified, nationally recognized laboratories. Most results are completed within 24 hours of the specimen being collected. We provide two options for pre-employment drug testing, to fit your needs.
